

Personal computer equipment for ESILV Students

ESILV students (regardless of year of study) must have a laptop running on Windows (tablets, mini-PCs, and Apple computers running Mac OS are not suitable).

This personal laptop is a necessary work tool for the smooth running of studies. It allows each student to work with standard scientific and office software or software provided by ESILV, to connect to the network, and to use the resources provided by the IT department.

« Comfort » configuration	Minimum configuration
Intel i7 Processor (11th generation or higher)	Intel i5 Processor (8th generation or higher)
RAM Memory 32 Go	RAM Memory 16 Go
512 Go SSD + 1To SATA Storage	512 Go Storage
4Go dedicated graphics card	15" HD Screen
15" HD Screen Camera	Camera
Wifi 802.11 g,ac Dual Band	

During their studies, ESILV students have access to 1 Teraoctet of storing and sharing space on OneDrive.

The student association “DigiTeam” has a partnership with the manufacturer MSI which allows students to buy their material at preferential rates.
